

Robert Dean statement / press conference July 24, Barcelona

Good evening. My name is Robert Dean. I served in the U.S. Military for more than 27 years.

And when I retired in 1967, my rank was that of a Command Sergeant Major.

In 1963, I received an assignment to the Supreme Headquarters Allied Powers Europe.

Upon arrival in Paris, I was immediately assigned to the Supreme Headquarters Operation Centre, a place we called SHOC. At that time, my top secret clearance was upgraded to Cosmic Top Secret, which was and still is the highest level of security classification in NATO.

With cosmic top secret clearance, I had access to highly classified NATO documents. One of them was called "The Assessment" – a secret NATO study initiated in 1961, and it was still underway when I arrived. The study was about an inch thick. It was supported by about 8 to 10 inches of annexes and appendices. Some were thicker because there were photographs involved.

It was published in the summer of 1964. And when I had a chance to read the assessment, it changed my life.

Because for the first time, I became aware of the reality of the extraterrestrial presence on Earth.

The study was shocking: Everyone who read it was deeply affected.

It concluded in 1964, that the Planet Earth had been under an observation or survey for hundreds of years, perhaps thousands of years, and that there seemed to be a plan unfolding, a process taking place.

In 1964, the study did not know what that program or plan was. Frankly, I'll tell you that even today most of our experts don't know what this plan is all about.

What's important: The study also concluded that there did not appear to be a military threat involved, which was the initial reason for the study in the first place. The repeated demonstration of the incredibly advanced

technology indicated to the study that if they were malevolent or hostile, there was absolutely nothing we could do.

Another conclusion was that we were dealing with 4 different races. They were all humanoid, but one race in particular appeared to be totally human.

That fact disturbed the admirals and the generals a very great deal. Because they could be moving in the quarters of the SHAPE headquarters or the Pentagon, and we wouldn't know it.

This study published in 1964 was just the beginning for me. I have spent the last 45 years trying to determine the real meaning of the extraterrestrial presence.

During the Exopolitics Summit, I will present what I have concluded to be the meaning of this relationship between them and us.

Thank you.
